Dear Mam,

I am Dr.K.S.Archana, an Assistant Professor in the Department of Data Science and Business systems. Currently, we are doing the research project on agriculture, specifically a patent filing titled "**Coconut quality Analyzer for planting through automatic detection using Computer Vision**"

As a part of this research, we require x-ray images of coconuts. Unfortunately, we have only been able to take only two images in the outside lab but the cost is too high. I kindly request your permission to utilize our hospital x-ray to take necessary images for our study.

Thanking you

Thanks & Regards,

Dr.K.S.Archana
